1. Introduction

Trustees of every scheme and trust RAC must appoint a registered administrator to carry out certain duties on their behalf. These duties are known as 'core administration functions'. The 'core administration functions' are the preparation of annual reports and annual benefit statements for the trustees and the maintenance of sufficient and accurate records of members and their entitlements to discharge the above functions. In addition, registered administrators must submit scheme information to the Pensions Authority (the Authority) on an annual basis.

RAs must renew their registration annually with the Authority not later than 30 days before the anniversary of their initial registration or most recent renewal.

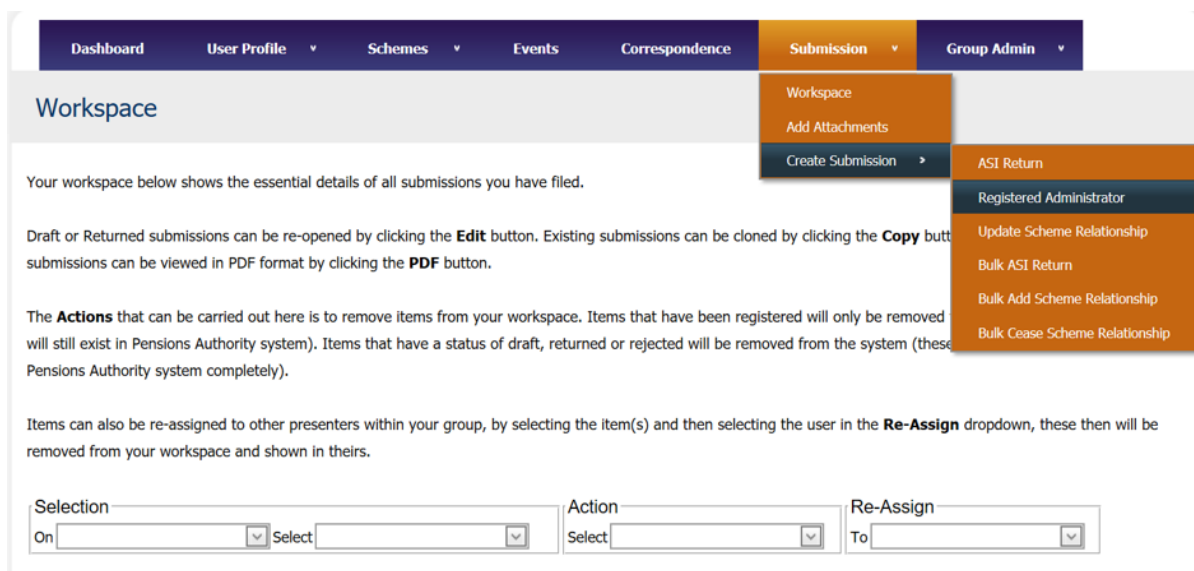

Applications for renewal of registration for RAs must be made online through the Authority's Pensions Data Register (PDR). Guidelines for submitting a renewal application are set out below.

2. Submitting a renewal application
